# THERMOHAND

## THE MANUFACTURER PROVIDED INFORMATION

| | |
|---|---|
| **PRODUCT DESIGN** | Knitted work glove |
| **SIZE** | 7, 8, 9, 10, 11 |
| **MATERIAL** | BRINIX® M1TH |
| **STANDARDS** | EN ISO 21420:2020 Protective gloves. General requirements and test methods<br>EN 388:2016+A1:2018 Protective gloves against mechanical risks<br>EN 407:2020 Protective gloves and other hand protective equipments against thermal risks (heat and/or fire)<br>EN 511:2006 Protective gloves against cold |
| **PROTECTION LEVEL** | **EN 388:2016 + A1:2018** |

| | | | |
|---|---|---|---|
| Abrasion resistance | 1 | Limited flame spread | X |
| Cut resistance Coupe test | 1 | Contact heat | 1 |
| Tear resistance | 1 | Convective heat | X |
| Puncture resistance | X | Radiant heat | X |
| Cut resistance TDM | X | Small drops of molten metal | X |
| | | Large quantities of molten metal | X |

**EN 407:2020**

**EN 511:2006**

| | |
|---|---|
| Convective cold | X |
| Contact cold | 1 |
| Water permeability | X |

| | |
|---|---|
| **PICTOGRAMS** | basic information for the determination of general requirements for gloves<br>mark of EU conformity<br>suitable for food contact<br>The product is manufactured in accordance with Regulation (EU) 2016/425. |
| **MARKING** | - individual glove is marked on the label sewn into the hem<br>- 10 pairs are packed in a PE bag together with information (in English)<br>- 100 pairs are packed in a cardboard box (up to 15 kg) |
